

The construction on I-94 from the Wisconsin State line north to the I-94/I-894 interchange is under way. Please use the official web site for information and planning if you are journeying from the south. Directions and much more information is available on this site.

<http://www.plan94.org/>

The Marquette Interchange Project is done. Please note that changes have been made to the on/off ramps as part of this project. If you are not familiar with the new interchange, you may use the following link for routing information.

<http://mapit.mchange.org/mapit/routingservice/>

Google and Yahoo maps do not currently accurately reflect the removal and addition of ramps done for the Marquette Interchange Project.
